English — Professional

PROFESSIONAL EXPERIENCE

Frontend Developer — Bloc Delivery 2023 – Present

- Develop responsive web applications, landing pages, portfolio websites, and admin dashboards using React, Vue, Next.js, and Nuxt.js.
- Build reusable and maintainable frontend components based on UX/UI designs.
- Collaborate with UX/UI designers and coordinate with backend developers to ensure consistent, data-connected interfaces.
- Optimize responsive layouts and frontend performance to improve user experience across devices.
- Maintain source code and manage tasks using GitLab, GitHub, and Jira within an Agile workflow.

Freelance Frontend Developer — Thortok 2024 – Present

- Develop scalable and fully responsive web applications using Nuxt 3 and Vue.js
- Implement application state management using Pinia.
- Build clean, maintainable frontend code with a focus on usability and responsive design.
- Collaborate on frontend development to deliver consistent user experiences across desktop and mobile devices.

SELECTED PROJECTS

Lush Skin — E-commerce Website — React, Next.js

- Developed the customer-facing e-commerce website using Next.js.
- Built key shopping features including product browsing, shopping cart, and checkout.
- Integrated ABA payment checkout into the customer purchasing flow.
- Implemented responsive interfaces and integrated APIs for product, cart, and checkout.

Bloc Delivery — E-commerce Website — React, Next.js

- Developed the front-end applications using Next.js, React, and TypeScript.
- Worked with a Turborepo monorepo to manage multiple applications and shared packages in a single repository.
- Implemented an adaptive design system with optimized layouts and experiences for different devices.
- Developed separate UI experiences where necessary to better support desktop and mobile users.

DevLife OS — Project Management Platform — Next.js, TypeScript, PostgreSQL, Drizzle ORM

- Building a project and task management platform using Next.js, TypeScript, and Tailwind CSS.
- Implementing authentication, projects, tasks, project members, dashboards, and settings.
- Working with PostgreSQL and Drizzle ORM for relational data management.
- Writing automated tests with the Node.js Test Runner (node:test) for core logic.
